

# Introducing the ART Solution...

**Security, safety and peace of mind while you enjoy the convenience and comfort of home / business control...**

**... with unprecedented ease!**

Whether arming or disarming your system, bypassing zones or controlling lights, all keypads are easy to use and put security at your staff and families fingertips. Choose from standard or wireless versions, keypads that speak or sophisticated graphic touchscreens.

**Symphony ... the most unique intelligent new advance in security and business / home control**

The vibrant, full colour touchscreen interface actually brings your business and home to life—taking security control to new levels by making your life easier than you've ever dreamed possible!

**First Line of Defence**

Glassbreak detectors enhance the effectiveness of your security system by helping keep intruders where they belong ... outside. They also provide shatter and shock protection for your windows—preserving the look of your property while protecting it.

**Ultimate Protection**

Reliable smoke & heat detectors provide the ultimate protection of life & property.

**Customised Control**

Vista can be customised to schedule events, auto arm your security system and control lighting and select appliances to improve security, maximize profitability and save money. Turn off equipment and lights on and off at pre-determined times in offices and parking lots for enhanced security and cost savings.

- Access control
- Loss prevention
- Duress alarms for safety

**You're in Control**

Vista offers easy, fingertip control of indoor and outdoor household lighting, garage doors and select appliances. You'll have the peace of mind from knowing that your home and family are safe and secure while enjoying the comforts of home automation.

Turn entry lights on when you arrive home. Create on and off lighting schedules for a "lived in" look while you're away.

Family members can control the system from their bedside, allowing the system to protect them while they sleep.

Dynamic Zone Type (DZT) allows you to customize each & every zone attribute and address special protection requirements like pool areas.

**Security Made Simple**

Since the touchscreen is so simple to use, employee training time and false alarms are dramatically reduced.

**The protection you need**

All panels can be monitored by a professional monitoring centre to enable you 24 hour support in the event of an emergency.

**The peace of mind you deserve.**
